### **DETAILED ACTION**

Claims 1-17 and 23 have been canceled. Claims 18-20 have been amended. Claim 24 has been added. Claims 18-22 and 24 are pending and under consideration.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 18-22 and 24 are the claimed invention is directed to non-statutory subject matter. Claims 18, 19 and 20 are drawn to a nucleotide sequence and thus read on nucleic acids which exist in nature. Claims 20-22 are drawn to vectors which comprise said nucleotide acid sequences and thus encompass naturally occurring plasmids found in nature. Amendment of claims 18, 19 and 24 to specify "isolated nucleotide sequence" would overcome this rejection for all the claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-22 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 18, 19 and 24 refer to contiguous nucleotide sequences, nucleotides, however, SEQ ID NO:7 is an amino acid sequence. For purpose of examination, claim 18 will be read as an isolated nucleotide sequence encoding SEQ ID NO:7 and claim 19 will be read as an isolated nucleotide acid sequence comprising residues 666 to 3162 of SEQ ID NO:5. Further, SEQ ID NO:7 is not encoded from residues 3 to 642 of SEQ ID NO:5. Therefore, claim 24 will be read as an isolated nucleic acid sequence encoding SEQ ID NO:6.

All other rejections and objections as set forth in the previous office action are withdrawn in light of applicants amendments.

Art Unit: 1643

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
